## User Instructions

Upon successful installation of the app follow these steps:

1.  Sign in to the app using your google account
2.  Once signed in, click the overflow menu on the top left side. From here you are able to add a necessary component to your task at hand.
3.  Click any of the four options and fill the fields out as needed. If anything is required that was left blank you will be notified to fix it with a message box appearing from the bottom.
4.  Navigate to the home screen which you can identify with four cards displaying the four available options (projects, clients, equipment, events.
5.  Click any one of them and you will be presented with a list of all the submissions that you have done. If none have been submitted you will see a message again, letting you know that it could not find any records that met your search.
6.  Enjoy!
